

WINE & BEVERAGE LIST

Our wine & beverage list represents only a small but comprehensive selection of excellent wines from leading Australian & New Zealand vineyards & France.

Our policy is to offer quality combined with continuity of supply plus stability in pricing. We hope the following list meets with your requirements.

Please note: Athol Hall is NOT B.Y.O. & external wines are not permitted

Our beverage is estimated at \$ 30.00 per person, which is purely based on consumption of the function. Beverage is estimate only. Additional beverage consumption is to be paid at the conclusion of the function. Should the estimate beverage amount be greater than consumed, reimbursement will be paid at the conclusion of the function.

** The beverage is an estimate only and is individual to every function. The consumption is dependent on duration of function (over five hours tends to go over on consumption), selection of beverages served & consumption of guests. Athol Hall asks that there is a beverage nominee for the function so the Supervisor on duty can keep them updated on the beverage amount.
